

# DWA\_03.5 Knowledge Check\_DWA3.2

---

1. User story(ies) in Gherkin syntax for the "+" button.

As a user, I want to be able to press a button to add to the tally because a new person entered the venue

As I user, I want the button color to change when I reach the maximum tally

---

2. User story(ies) in Gherkin syntax for the "-" button.

As a user, I want to be able to press a button to deduct from the tally because I made a mistake with the previous addition

As a user, I want the button color to change when I reach the minimum tally

---
